

# Impact Tester for Wood

Applicable to determine the impact resistance performance of products, such as hard board, finished hard board and impregnated paper laminated wood floor, etc. The height of this instrument can be adjusted. Comply with standards: GB/T18102-2000、GB/T17657-1999

## Technical Specification

Type	MCQ-I	
Description	Impact Tester for Wood	
Impact Method	Weight Drop	
Drop Height	0~100cm	0~40inch
Falling Weight	1kg/300g	
Additional Weight	1kg	
Steel Ball Diameter	42.8mm±0.2mm	
Base Aperture	324g±5.0g	
Overall Size(mm)	450*450*1800mm	
Weight	18kg
